CITY BUILDINGS

WHAT IS INCLUDED

This PDF includes the buildings needed to populate the interior of our modular Ancient City Fortifications set. Assembly requires a color printer, scissors, glue, and the sort of thin cardboard you'd find in a cereal box for roofing. If you would rather use a printed roof, we've included 4 oversized terracotta roof sections you can cut down with scissors to fit! Printing a single copy of this PDF on high-quality cardstock yields the following:

- (4) Courtyard buildings
- (9) Rectangular buildings
- (16) Square buildings
- (4) Oversized roof sections

SCALE

Pieces are scaled for 6mm wargames, designed with low, flat roofs of matching height to allow miniatures to sit evenly on the roof tops.
